

LIVINGWATERS™ DEALKALIZING CONDITIONERS

For consumers who demand "the very best"!

Enjoy the Many Benefits of a LIVINGWATERS™ Dealkalizing Conditioner

- Eliminate corrosion caused by excess alkalinity and high pH.
- Eliminate health concerns due to excess nitrates and sulfates in drinking water.
- Protect RO membranes, pipes, fixtures and appliances from expensive repairs due to scaling caused by excessive sulfates.

LIVINGWATERS™
ENGINEERED WATER TREATMENT SOLUTIONS

LIVINGWATERS™ WATER CONDITIONERS

For consumers who demand great value!

Metered valve for greater efficiency

Our control valve is metered for greater efficiency and reduced salt usage, because regeneration of the softener resin is based on water consumption. Digital LCD display provides information on usage and gallons remaining before the next regeneration cycle.

Features & Benefits

- Designed for whole house water treatment.
- Removes nitrates and sulfates, the most significant anions that cause corrosion and scaling due to high alkaline water.
- High efficiency anion exchange resin.
- High salt and water efficiency.
