

LIVINGWATERS™ NEUTRALIZER

The **NO CHEMICAL** approach to acidic water

- **Easy Installation!**
- **No Chemicals!**
- **No Power!**
- **No Drain!**
- **Saves Water!**
- **No Maintenance!**

✓ SPECIAL CALCIUM/COROSEX® MEDIA BLEND NATURALLY AND EFFECTIVELY RAISES PH WITHOUT CHEMICALS, STORAGE TANKS, AND PUMPS!

✓ EASY-FILL PORT MAKES MEDIA REPLACEMENT QUICK AND SIMPLE!

✓ NO BACKWASH MEANS NO WATER WASTE!

LIVINGWATERS™
ENGINEERED WATER TREATMENT SOLUTIONS

LIVINGWATERS™ SCALE PREVENT SYSTEM

For Consumers Who Demand the Very Best!

Simple In/Out Design

Exclusive Dome-Hole

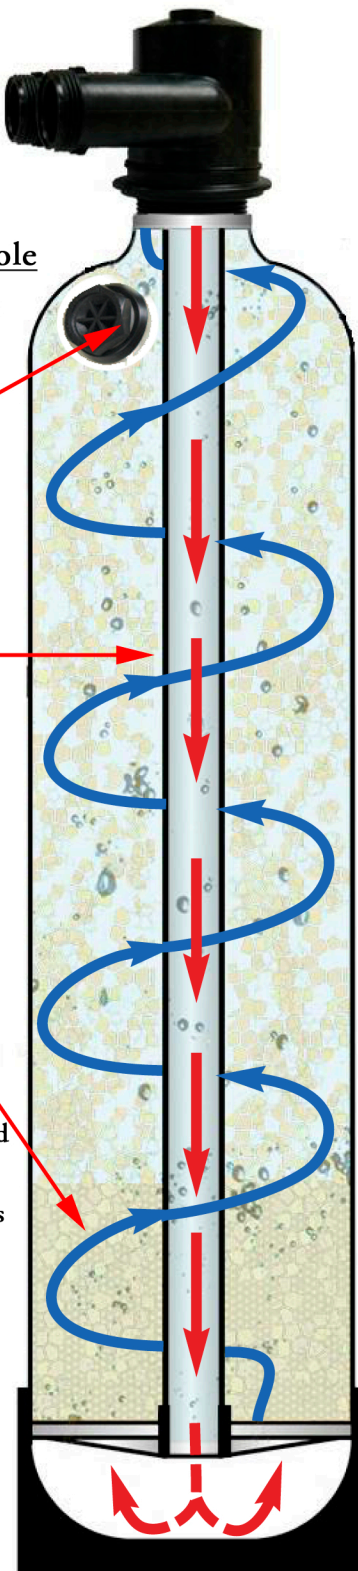

Our unique dome-hole makes refilling easy. Simply unscrew the cap and pour in new media when necessary. No one else has anything like it.

Up-Flow Design

Simple up-flow design requires no backwashing. Save water and expense.

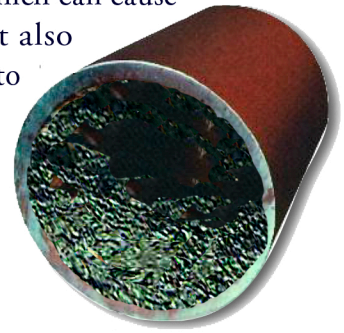

Special Blend of Natural Media

Media is a special blend of calcium and magnesium compounds that dissolve naturally to balance pH the way that Mother Nature Intended.

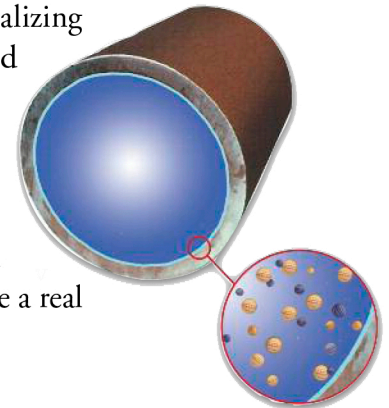

The problem

Acidic water creates corrosion in pipes, appliances, and other plumbing surfaces. This leads to higher levels of copper in water, which can cause digestive disturbances. It also results in expensive repairs to appliances such as ice machines, coffeemakers, dishwashers, hot water heaters, and boilers.

The Solution

LIVINGWATERS™ acid neutralizing systems use a special blend of acid neutralizing media that moderate water's pH naturally and effectively, without the need for caustic chemicals or chemical feed systems that can become a real maintenance nightmare.
